

To whom it may concern,

We are extremely pleased with the service received from Systeque. As a growing tech company, reliability, responsiveness, and cost-efficiency are vital to our operations — and Systeque delivered on all fronts.

They supplied us with both server licenses and Microsoft Office licenses at highly competitive pricing, which immediately stood out compared to other vendors we considered. The entire process, from quotation to delivery, was handled swiftly and professionally.

A special commendation goes to Terrence, the Operations Manager, for his exceptional support and professionalism. He ensured that our licenses were provisioned and activated quickly, minimizing downtime and keeping our systems running smoothly. When we encountered a license issue on one of our servers, Terrence and the Systeque team responded promptly, worked with us hands-on, and resolved the matter efficiently.

We highly recommend Systeque for any business looking for reliable licensing solutions, excellent service, and genuine value for money. They've proven to be a trusted partner, and we look forward to continuing our collaboration.

Sincerely,
Andre van Rensburg
Managing Director
