To whom it may concern,

This letter serves as proof that Systeque is our IT Infrastructure provider for our global operation for 10+ years and have successfully carried out several projects for our organization as well as provided us ongoing support for our operation on a large scale. They have partnered with us on several projects including the major task of our migration to the cloud, globally.

As Head of Technology for Wings Travel Management Globally I attest to their professionalism, technical ability as well as their ability to successfully deliver any project they have been handed.

Sincerely,
